Oreo spiders

Step 1: Break pretzel rods in half and stuff into the oreo cookies to form the spider legs.

Step 2: Melt the chocolate until smooth (you won't need much, just enough to dab on where the eyes will go to help them stick)

Step 3: Use a toothpick or whatever you have on hand to place the melted chocolate onto the oreos where the eyes will go.

Step 4: Place the googly eye candies onto the melted chocolate and put oreos in the fridge until the chocolate hardens.

Step 5: ENJOY!
